In his report covering the year's work, President Ben S. Davies said he had secured P. P. Gates of Boston, Mass., general secretary of the United Society and State Secretary J. A. Reichel of Harrisburg for addresses at mass meetings, the time and places to be decided later.

A census of Christian Endeavorers of the county is under way. Mr. Davies said, but has not been completed. "It is a 'snoo job,'" he added.

That the president is a busy person is indicated by the fact, as shown in his report, that he made 19 trips from his home to Uniontown to attend advisory board meetings, represented the county at the international conference at Buffalo and a state meeting at Harrisburg, visited 14 societies, wrote 132 letters, answered 145 long distance telephone calls and numberless local ones, besides looking after a host of details connected with the work of the county.

FRIDAY-EVENING, JUNE 25, 1926.

## THOSE WHO HELPED AND THOSE WHO HINDERED.

Those citizens of Connelville who have pride in the success of every undertaking which reflects creditably upon the community's good name and reputation for patriotism and willingness to render unsolicited service in any form, have Captain Skomp and the officers and men of his command to thank for having retained the honor which belongs to Connelville as the home station of a well-known unit of the famous Tenth Regiment.

True, other influences than those so capably carried by Captain Skomp and his energetic workers contributed toward making it possible to reorganize Company D, but the assistance thus given was much less tangible than the actual and visible results obtained by those who secured the re-organization.

That so much time was required to bring the company up to the strength required for official recognition and muster-in was not the fault of those persons engaged in the active work of recruiting, to whom very liberal praise and commendation is due and should be freely given. The reorganization was delayed much beyond the anticipated time of completion because of a series or a combination of circumstances which proved to be very formidable obstacles, not because there was lack of zeal or earnestness of effort on part of the organizers.

One of the obstacles to be overcome was the natural consequence of the reaction following the release from service in the war of a very large number of young men of military age.

Having had enough soldiering to deprive it of novelty and interest, and without a great emergency like the war as a stimulus, denying the uniform again did not strongly appeal to the large majority of ex-service men, particularly those who had served overseas. In this view of the matter they were right. They had done their bit, and more; and were entitled to release, hence work without obligation to do more than lead their moral support to the perpetuation of the history and traditions of Connelville's unit of a famous regiment.

But of those who had not yet learned the business of soldiering, or had but comparatively little training and instruction, more was expected. Many such young men did early signify intention of enlisting but they later permitted themselves to be influenced to break their pledge. Listening to the propaganda of certain persons who misunderstood the functions of the National Guard of Pennsylvania, or who purposely sought to retard the reorganization of Company D, and thereby discredit the community, a number of the young men who were relied upon to take their places in its ranks were induced to refuse completing their enlistment.

But despite all the objections offered, obstacles imposed, misrepresentation made and other artifices employed to make reorganization difficult, it is to be said that there has been found in Connelville, and in the neighboring sections of the county a sufficient number of young men who, inspired by the same patriotic fervor that actuated the men who have formerly served with high honor to Company D, the state at the nation in the emergencies that have arisen during the past 40 years, have had the courage to prove their willingness to serve the state and be ready, if there be need, to respond to the call in an hour of national peril.

To these young men the gratitude of the community should go out in unstinted measure for having helped to meet a difficult situation by preserving the city's credit as a center of patriotism and wholesome public spirit. By the same token those who hindered have invited the degree and kind of reproach which must forever rest upon those who failed their country in the trying days of '17-18.

The Railroad Labor Board is merely giving the country a demonstration of the difficulty the San Francisco convention will have in making its way.

The people of this city arose to the occasion when the ladies of the culture club put on the rose sale as a means of raising money for the play ground.

Company D has never failed to meet an emergency on any battlefield—home or foreign.

The police should not stop at putting a stop to looting.

The boosters of Company D feel rather better than the knackers do or ever will feel.

There are multiplying evidences that the most was moving rapidly in the direction of the convention in San Francisco.

The Democrats who make the proud

boast that the San Francisco convention will be unopposed seem to overlook the fact that it is a gathering in which everybody on the ground, and some by long distance phone, expect to have.

Will the factions at San Francisco give William J. the "chance" which he has been given upon the scene?

Bryan might as well be both specific and frank and admit that neither a "dry" nor "wet" candidate named by the San Francisco convention will have a ghost of a show in November.

The Gathering of the Factions.

Latrobe Bulletin.  
There will be several factions at the Wilson faction, the Bryan faction, the Tammany faction—the faction that wants the League of Nations, the faction that doesn't, the faction that wants a wet plank, the faction that doesn't, the faction that will approve of labor's plank, the faction that will not, the faction that will be dead-set against government ownership of railroads, the faction that is for suffrage, and the faction that is opposed to it.

Then there will be the faction that is for Mellon, the faction that is for Cox, the faction that is for Keredith, the faction that is for Palmer, the faction that is for Edwards, the faction that is for Bryan, the faction that is for Hoover.

BACK TO BUSINESS!  
NO MORE "STAR GAZING!"Philadelphia Ledger.  
Part II.

A Harding-Coolidge Administration should bring us back from the clouds. We can let the Almighty run his own universe for a few years, while we make of America the grandest single secular power in the world for righteousness, honor, freedom and decency. We may or may not get into a formal League of Nations, but nothing in the world can keep us out of the Brotherhood of Mankind. We were not members of any league when we went to the rescue of the Cubans and then presented them magnificently with self-government. If anybody wants to know what we think about Ireland, let him look at Cuba. We were not members of the league when we took up the challenge of the German autocracy and rushed to the help of the democratic forces battling for human freedom. We do not require a long to an organization, or to wear a uniform, or to pay an initiation fee to be decent, straight-thinking, clean-living, liberty-loving Americans who will fight any foe on earth, however far or formidable, who wars upon the things we love and the principles we cherish.

We do not say this to indicate that we think the Harding ticket abandons the league. We think precisely the opposite. His personality and his utterances in the Senate give us a dainty and indecisive league plank the definite interpretation it needs. But we say these things to reveal our faith in Americanism and to offer one reason why we think that a return to the good old Republican Americanism, which chiefly dominated this nation from Lincoln to Taft, is exactly and emphatically the policy which our people most keenly require after their "seven lean years" of experimental academic, nerve-racking Wilsonism. Wilsonism is only Bryanism in a top-hat.

The Republicans will give us a business administration. The people have been clamoring, and clamoring very wisely, for a business President; and the Republican party stands ready to give them not only a business President but an entire business regime. We will be able after it comes into power, to get down to business with the firm knowledge behind us that all its energies will be employed to help business, to protect and encourage business and not to break its back with such fads as "government ownership" or to pile taxes on it as if national prosperity were a crime, or to cripple in a hundred ways its vital competition with foreign rivals.

Profiteering will be punished. That is a Republican policy. Combinations in restraint of trade will be dissolved. That is due to Republican initiative. None of the old landmarks will be abandoned. But neither will legitimate and universally helpful business be penalized just because it is successful. Success is not a crime in the eyes of the Republican party. Indeed, that party prides itself on bringing success in its train to every public-spirited enterprise whose success can be shared with the American people.

Just Folks

## THE BOY AND HIS STRING OF FISH.

Home he comes with a string of fish. A barefoot boy with a freckled face. And a grin as wide as a king might wish.

Home he comes from his favorite triumphantly trudging the village street.

Envy'd by all he may chance to meet.

"Hey there, Buddy!" an old man cries. "Let's have a look at the fish you caught!"

There's two or three of a decent size! "I'll bet there was fun in the way they fought."

Give you much trouble? I'll bet they did. Well, you surely are a lucky kid!"

Home he trudges and well he knows "That all eyes follow him down the street."

Some will say him wherever he goes, "The richest man he may chance to meet."

Will look at him with a wistful eye. And envy him as he marches by.

For he has been where the air was pure. Where no one battled for gold or fame.

He has lived a day where his joy was sure. And comes with the trophies that all would claim.

And such of us now, could we have our wish. Would be a boy with a string of fish.

## Regulations Governing the Award of "Victory Medals" to Members of A. E. F.

The Victory Medals, which are to be awarded all officers, contract surgeons and enlisted men who served on active duty with the American Expeditionary Forces of the United States at any time between April 6, 1917 and November 11, 1918, and whose service was honorable will be provided on application filed with the army recruiting station in Pittsburgh to service men residing in the Pittsburgh district.

Blank forms for this purpose can be obtained from the Pittsburgh station on request addressed to the Victory Medal Officer. Discharge certificates and other supporting evidence of service must be presented when the applicant applies in person and mailed with application when that means is employed. In cases where discharge certificates were not issued a copy of the discharge order must be furnished. Applications by next of kin of persons whose death occurred while in the service will not be approved by the Pittsburgh recruiting officer. All such applications will, however, be sent by this recruiting office to the adjutant general of the Army, Washington, D. C., for approval. Next of kin will be required to have applications made out at the Pittsburgh recruiting station.

The medals will be mailed from the depot office, United States Army, Philadelphia, after the application has been approved by the recruiting officer at Pittsburgh.

Battle clasps will be awarded for each of the major operations and for the occupation of defensive sectors. Only defensive sector clasps will be awarded to any one individual. To be eligible for battle clasp the officer or enlisted man must have been actually present under competent orders, in the sector of the army corps division or smaller independent organization during the period in which the organization was engaged. The officer or enlisted man may have belonged to the organization in question been attached to it or have served with it in some independent capacity.

The authorized presence of the person in the locality at the time of operation will be the determining factor in the award of the clasp. Each officer or enlisted man serving in the First Army area between August 30 and November 11, 1918 or in the Second Army area between October 12th and November 11, 1918 will be awarded the defensive sector clasp irrespective of awards for major operations. Each officer or enlisted man present in an engagement in European Russia since August 1, 1918 or in Siberia since August 15, 1918 will be entitled to a defensive sector clasp.

Vittorio-Violetto October 24 to November 4, 1918

For those who served overseas but are not entitled to a battle clasp to designate a major operation clasps will be awarded for serving in France and Italy between April 8, 1917 and November 11, 1918, for any service in Siberia and European Russia and for service in England between April 6, 1917 and November 11, 1918.

Officers and enlisted men forming a part of the personnel of the crews of army and commercial transports operating between the United States and Europe will be included among those authorized to wear one of the clasps enumerated above, depending on the European country for which the transport sailed. Not more than one such clasp however will be awarded to any individual under this authority.

Any officer or enlisted man who entered the service after November 11, 1918 and has served as a member of the A. E. F. in Siberia or European Russia is entitled to a Victory Medal with appropriate clasps.

## WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Four three-quarters of an ounce of Mentholated Astringent in a pint bottle, then fill the bottle with water, then fill the bottle with water, then fill the bottle with water.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passages clean and healthy.

Keep all druggists dispense Mentholated Astringent in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

## DR. TWINING AND HERROD TO PITCH IN SATURDAY'S GAME

Interesting Blab Duel Is Therefore Considered in Prospect.

### SOME CHANGES IN LINEUP

Baseball fans will have their appetites whetted today and tomorrow by at least two fast games of the national pastime. This afternoon at 2 o'clock the much heralded game between the team and Lelander No. 1 will take place.

After the big "tear-off" today at Trotter the fans' attention will turn to the Connellsville Independents and the W. C. Murdoch game at Fayetteville. This afternoon's game of the Independents this season has been a thriller, but this promises to be the best, as the Murdoch team is noted for their ability to give any team a hard run for it. The fans have asked the Independents to book such teams as the Allegheny Steel, Schenley Steel, and such fast teams of that caliber. The Murdoch team has played such teams and have proven themselves to be on a par with the best of them. Some doubts appear to exist as to whether the Independents will put on a strong team in this game. This question arises from the fact that a couple of the Independents players are also members of the local Baltimore & Ohio team, which were slated to play at Cumberland on Saturday. Not only was the game with Cumberland cancelled, but every game scheduled will be revised; the management of the Baltimore & Ohio team is being aware when it will begin its schedule. This means that the Independents will be out in all their strength. Francis and Jones will go to the game.

The game promises to terminate in a pitching duel between Dr. Twining and the Murdoch's team and Herrod for the locals. The outfield will see a new face in the person of George Miller of the Halsey works. Miller has been seeking a try with the locals for some time. Ping Townsend, left of the mighty swing, will in all probability be able to get into the fray tomorrow. Pike Henry will get into the Connellsville uniform. Pike will appear at the hot corner, as it is at this station where he shines.

The game will start promptly at 2:30 and as the Murdoch team is noted throughout the independent circuit for the fact that they put up a good crowd is expected to turn out to witness the game.

The full schedule of games arranged for on the eastern circuit of the Baltimore & Ohio railroad will undoubtedly be revised. Manager Mitchell of the local team was in receipt of a telegram from Superintendent Boyd of Pittsburgh requesting his presence at night Pittsburgh office, where he was informed that the game with Cumberland would have to be cancelled for Saturday. Every team manager was called to attend the meeting, the only one failing to appear was the manager from Baltimore. No hint was given as to when the schedule would start, but it was stated that the result of the cancellations of the games was due to the uncertainty of a strike taking place.

Harry Randolph, the Dickerson Run player who is now with the Florence

team, will be asked in the near future to pitch a few games for the Independents. Although the big star of the team, who has had ample big games during his recent school days, his admirers are anxious to see him in one or more of the big games that are on the Connellsville Independents schedule.

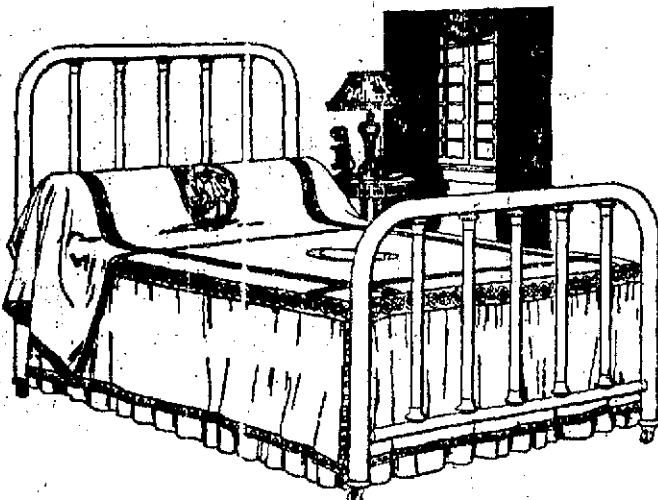

The boxing fans of Uniontown were so well pleased with the show that was held at the county seat last week that they want the Fayette Athletic club to stage another. If such a show is arranged the matchmaker will try and arrange practically three star bouts. One of these will feature Johnny Donnelly of Uniontown with some high class boy for 10 rounds, another of the same distance with Billy Carter of this city meeting the best that can be secured and an opener of eight rounds with Al Mullen and Johnny Pollock of the mixers.

The club will not stage any more Pittsburgh boxers, unless they are to meet a local boy, for no matter how hard the club has tried to make them extend themselves to their best effort.

Recognizing the supremacy of the Victrola and Victor Records, we refused to allow the lure of Greater Profit to induce us to offer anything other than the GENUINE VICTROLA.

TWO THINGS ON WHICH THE GREAT-  
EST ARTISTS AGREE

First, that the Victor process of recording inscribes their artistry upon Victor Records so true to life as to actually duplicate their interpretations.

Second, that the Victrola is the one instrument which unfolds these inspired portrayals with the same fidelity, paralleling their actual performances.

The greatest artists are Victor artists not alone because of the lifelike qualities of Victor Records, nor yet alone because of the wonderful tone-quality of the Victrola, but because the Victrola and Victor Records used together reproduce their art with a fidelity equaled only by life itself.

Victim is Louis Berger, Seven Year Old, of Mount Pleasant.

### FEDERAL RECOGNITION SOON

For Members of Company E and Command Will Then Enter Upon Routine of National Guard; Rain Causes Postponement of Kecksburg Game.

Special to The Courier.  
MOUNT PLEASANT, June 25.—Louis Berger, seven years old, son of Mr. and Mrs. M. Berger, died of blood-poison at the Shupe street home of the parents on Wednesday. The infection developed from running a rusty nail into his foot. On account of there being scarlet fever in the home private services were held and interment was made in the Greensburg cemetery.

**Federal Recognition Next Week.**  
One next Thursday evening the members of Company E, with their officers, Captain John L. Burkholder, First Lieutenant William Spilko and Second Lieutenant Wilmer Fox, will be given federal recognition. The company has 104 members and expects, as soon as given federal recognition, to begin the regular routine of work.

**Game Postponed; Rain.**

## SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe That Anybody Can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.—Adv.

#### NEW RAIL STRIKES DELAY PROGRESS IN EASING CONGESTION

NEW YORK, June 23—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:  
The freight market in the east, of which the steel industry, which for weeks has been pushing its production so vigorously at this time.

had been feeling that the progress in breaking the rail congestion had experienced a more or less complete halt.  
Steel production is well maintained, on the whole, and is probably at a greater rate than at the beginning of the month, being at a rate not far under the rate last March, the best rate shown since October, 1918. The heavy production, in face of further additions to the large quantity of steel in stock in mill warehouses and yards, is remarkable. It is not impossible that developments will occur in the next two or three weeks disclosing a particular reason on the part of the mills for pushing their production so vigorously at this time.

Consumers of several finished steel products, and sheet consumers in particular, are showing even greater anxiety than two or three weeks ago to secure supplies, whether on old contracts or by fresh purchases at the high prices still ruling. For late deliveries, say beyond August or September, there is very little interest in any quarter, except for the continued buying by the United States Steel Corporation customers, the Industrial Board prices at which such purchases are made being regarded as a safe despite the very indefinite delivery promised.

The break of the Amalgamated Association with the sheet and tin plate makers who have hitherto signed the tonnage scales, about 40 per cent of the total of sheet and tin mills, will result in the likelihood of some if not all of the union mills after June 30. Whether the workers can do anything with the non-union mills remains to be seen. If the American Federation of Labor does anything in the steel

industry it will be a separate operation as the two organizations will not work together.  
Picketing Rumor Denied.  
MARION, O., June 24.—Ohio suffragists today denied a published statement that members of the National Women's party who picketed the Republican National convention in Chicago are planning to picket Senator Harding's home here this summer.

Bedbugs lay an average of seven eggs per day. Under favorable conditions they hatch in five days of which two-thirds are females. They mature to adult size and are capable of laying one female or even unmated for one year. To rid the body bedbug, you can readily see how necessary it is to use a preparation that will kill the eggs as well as the live ones. P. D. #### THE PARAMOUNT.

"A DOUBLE DYED DECEIVER"—Awe-inspiring Goldwyn attraction with Jack Pickford, the popular star, in the leading role, and an episode of "The Great Escape" with William Dunne in the leading role, are today's

#### feature attractions.

In "A Double Dyed Deceiver" the greater part of the action takes place in South America, where the Kid aligns himself with Thacker, the unscrupulous American consul of the port of Buenos Tierras, in a plot to rob Senator Urique, the wealthiest resident of the town, of a large sum of money, which he is known to keep at all times in an old-fashioned safe in the mansion. The Kid, ready for the adventure of the scheme more than

the fruits of the robbery, consents to impersonate the son of the Uriques, who left home some 10 years prior to the time.

His impersonation is so perfect that he is accepted as the son of the family and the formerly broken hearted mother finds herself in a veritable heaven of happiness because of what she believes to be her son's return.

he and other well-known screen stars in the leading roles, is being shown today.

The action of the play revolves about a chest of jewels, once the property of a Spanish queen, which lies at the bottom of the sea in a wrecked ship. The efforts of Leslie Macleod, a courageous Scottish girl, and General Lanza, an unscrupulous Spaniard, to regain possession of the rich treasure result in vivid action that causes the spectators to gasp in excitement

#### and astonishment.

Lanza continues to get Leslie in his apartment, where he tries to take advantage of her. By a clever ruse she escapes with a chart of the ocean bed where the Spanish wreck, the "Santa Ginevra," lies five fathoms deep. With her sweetheart, Lord Glenay, Leslie boards a submarine in quest of the jewels. They find Lanza ahead of them, and two men in diving apparel wage a fight to death in the deep.

## REVEREND MARCUM SENDS MESSAGE OF HOPE TO PHYSICAL SUFFERERS AS WELL AS SPIRITUAL; RECOMMENDS THEY TAKE THE REESE FORMULA R-11

Minister at York, W. Va. Praises Reese Formula R-11 Because of the Benefits He Has Received from Its Use; He Advises Everyone To Try It

Reverend A. A. Marcum, Baptist Minister at York, West Virginia, is looking after the physical well being of his people as well as ministering to the spiritual. He has for some time been troubled with kidney disorders which caused the usual severe pains in the back and general run down condition of the system. He bought a bottle of The Reese Formula R-11 in the Paragon Company's store and in the following statement tells of the benefit derived from its use.

The Reese Formula R-11 has many staunch supporters in Conneltsville who know from personal experience the quick relief to be obtained by its use. Way suffer any longer. Go to your druggist or to the Conneltsville Drug Company.—Adv.

### CONFISCATED COAL SUBJECT TO CLAIMS FOR LOSS BY SHIPPER

Ships of Settlement Is Provided by a Decision of the United States Supreme Court.

Based upon the decision of the United States Supreme Court against the Chicago, Milwaukee & St. Paul Railway company, involving the loss of coal in transit, which held that the measure of damages is the amount of actual loss caused by the breach of contract of carriage, and this is the

value of the goods at destination at the time they should have been delivered. Gibbs L. Baker, general counsel of the Wholesale Coal Trade Association, is of the opinion that the same principle applies to coal confiscated by the railroads for locomotive fuel.

Applying the decision to coal cases it is stated that where coal is sold to the consumer, the value of the coal at the point of destination at the time the coal should have been delivered. If by reason of the confiscation the consumer has suffered any loss directly due to the taking of the coal he

can claim collateral damages.

Where the shipment was made to the wholesaler as consignee (to Tidewater, for instance), the claim should be made by the wholesaler for the replacement value of the coal at Tidewater, at the price at Tidewater, after a reasonable allowance of time for transportation to destination.

Charles S. Allen, secretary of the Wholesale Coal Trade Association, expresses the opinion that "there is no warrant in law for the confiscation of coal by a railroad, the cost of having been fostered by the confiscation of the coal trade, supplemented by the fear of reprisals if opposition were offered. In cases of confiscation the

situation created is much more favorable to the claimant than losses occurring in transit, because goods in transit may be lost or damaged without the affirmative act of the carrier, while confiscation requires an affirmative act by the carrier.

A GREAT HEAD.

1st Carrot—Bright chap, isn't he?  
2nd Carrot—Yes, that's Mr. Cabbage. He has a great head on him.

Something Learned.  
"Has the government taught you anything about railroading?"  
"Yes," replied the old-time railroad manager. "It has taught us that the traveling public can be made more docile and forbearing than we had imagined in our fondest hopes."

### 82 YEARS OLD AND AS GOOD AS A YOUNGSTER

Seventy-eight years ago I was a very young man. Doctors said catarrh of the stomach and bowels, affecting the liver and heart. For more than a year I wanted to die, but could not. Upon the advice of a friend I tried Mayr's Wonderful Remedy, and although 82 years old I now feel as good as a youngster. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. A. A. Clarke and druggists everywhere.—Adv.

She sought to smile, but her eyes dilated with dread. "No, no, dear," she soothed. "Be calm! You are all right. You are yourself—yourself."

"Now—too late!" he cried. "How will you ever forgive me—when you know? For me to take advantage of you this way! I thought myself a man!"

"There, there, dear; be quiet now. It's merely all this excitement. It's all doctor's fault locking you up in that horrible place. But you are safe now, dear, quite safe. So be quiet, that's a good boy. You know you promised."

"If only it was that!" he groaned. "Little girl, think—open your eyes! You cannot be so blind! Can't you see? Would a brother kiss you as I kissed you?"

More than ever frightened and bewildered, she stood silent. He bent nearer. At last the meaning of the look in his eyes forced its way into her consciousness. Her cheeks flushed scarlet and she suddenly whitened.

"You see!" he said. "You have not understood your own feelings, because you have been unable to think of me other than as a brother. But I, Amy—little sweetheart—"

"No, no! don't—don't say it!" she panted. "But it is with the utmost reverence—"

"Oh, what a no-no!" she shrieked, and she fled from him in wild panic. He sprang after her and caught the door as she attempted to jerk it shut between them. His purpose, however, was only to close it without the violent jar that might have awakened old Tilly. Instead of following the frightened girl into the hall, he shot the bolt.

### CHAPTER XIII.

Benny declared himself. At dawn Tilly, half-asleep, left something warm against her body. She gave it a shove and met with a soft resistance that caused her to screw her head about in fright. On the pillow beside her lay the tear-stained face of her beloved little mis-tress.

"Land sakes!" she exclaimed. "Whatever is the world?"

The big brown eyes opened wide in a startled gaze. Still dazed from slumber, the girl clutched her companion's arm. "Tilly! don't leave me—don't leave me alone!"

"I won't, dearie; course not. There, there, it's all right—only a bad dream. The still and go to sleep again," crooned the old woman as she had soothed the child when a young child. She murmured: "Such goings on! I never did!"

Amy rose on her elbow and stared at the window. "Why, it's daylight already. You'll be getting up."

"It's time. But just you lie still, dearie."

"I don't want to. I'll get up and help you. I'm—I'm lonely."

"Lonely?"

"And—frightened."

"Frightened? Land sakes! What makes you frightened?"

## CONSTRUCTION MAN HAS NARROW ESCAPE

Is Almost Killed by Train in Railroad Yards

N. L. Bick, of 717 Eighth Avenue, Huntingdon, W. Va., narrowly escaped death in that city a short time ago. Mr. Bick while at work was seized by a dizzy spell and forced to go home. Starting across the C. & O. yards, he became unconscious and fell between the tracks where he was found by a passerby and assisted home. A friend recommended that he take The Reese Formula R-11. This he did. He is now feeling fine and tells of the incident as follows:

"I had suffered from dizzy spells caused by stomach, liver and kidney for years and until I began taking The Reese Formula R-11 nothing seemed to benefit me in the least, although I believe I have taken everything. Not only has the dizziness disappeared but I feel better all over. I eat, sleep and feel as though I had never known a sick day in my life. I most heartily recommend this remedy to everyone suffering as I did and only wish I had known of The Reese Formula R-11 sooner."

soon rained her out into the garden. Hardly were they out of the house when the telephone rang. The call not being answered, the ring was repeated, not once, but fully half a dozen times, at frequent intervals. Blatantly ignorant of the impatient calls, Amy, with hands safeguarded from drench by leather gauntlet gloves, was training the rose-garden vines over the lattice of her summer house. Tilly supported the stepladder and handed up ties of soft twine.

After a time the telephone renewed its impatient summons. The gardeners worked on, oblivious. Presently the telephone was re-entrenched by the sharper ring of the doorbell. The result was the same. Three times the bell rang, more or less in unison. Still no response; still Amy remained, intent on her thorny blossomy task, with only an occasional glance upward at the rear window of her brother's bedroom.

The doorbell ceased ringing. A few moments later two persons, a keen-eyed, suspicious young man and an agitated young lady, came hurrying out of the pergola into the garden.

"There she is!" exclaimed the young lady. She waved her hand and called: "O-ho! Amy!"

Amy twisted about so suddenly that she almost fell off the ladder.

"Goodness!" she whispered. "It's Ellen and Charlie!"

"Pooh! Don't fret. We'll fool them easy," reassured Tilly.

The girl promptly recovered her balance and her aplomb, and called banteringly: "Oh, is it really you? You must be going for a football motor drive to be out at this unearthly hour. It almost tumbled me over to see you."

"Then you haven't heard, dear?" exclaimed Ellen.

"Your brother has escaped from the sanitarium," Benny bluntly stated the news.

"To be continued."

## A Woman Likes to be Admired, No Matter How Old She May Be

Nature undoubtedly made woman to be admired, and man to admire her. No woman ever gets so old that she doesn't want admiration, and no man ever gets beyond admiring her. Good looks in women do not depend upon age, but upon health. You never see a good-looking woman who is weak, run-down, irritable, out of sorts, seditious and nervous. Headaches, backaches, dragging pains, irregularities and troubles of that sort are all destroyers of beauty. Men do not admire sickness. Here is what one Pennsylvania woman says:

Seranton, Pa.—"For over a year I suffered with feminine trouble. I lost in weight until I was almost skin and bones. I had severe backaches, pains in my side and stomach. I suffered with a gastric condition and could not retain anything on my stomach. At times a drink of water would distress me. I doctored but did not seem to improve until I began taking Dr. Pierce's medicine and a few bottles of this so completely cured me that I have never had any return of these ailments. I grew strong and gained back my weight. I can recommend 'Favorite Prescription' to those who suffer as I did."—MRS. LERTHA SOHNS, 8 S. Webster Ave.

## If These Ties Had Been Delivered in April— According to Contract—

We could not be selling them now at these extremely moderate prices, but delays prevented their arrival until just now and the manufacturer rather than have them returned, cut prices so radically that we can sell them today at less than we contracted to pay last spring.

Things like this happen now and then and we are glad that the great and prolonged delay of summer has been timed with the delay of the shoes. Now both are coming together and our patrons profit by securing the most desirable summer footwear at greatly reduced prices at the very beginning of warm weather.

We were particularly careful in buying these stocks and they represent the very finest in workmanship, style and beauty that was obtainable. Given such high class merchandise and careful, courteous fitting, there can be no doubt that Wright-Metzler shoes assure real satisfaction.
